DETAILED ACTION

Response to Amendment

1. This office action is responsive to the amendment filed on 5/27/2009. As directed by the amendment: claims 21 and 36 have been amended, claims 22, 26 and 29 have been cancelled, and claim 47 is new. Claims 21, 23-25, 27-28, 31-43 and 47 are presently pending in the application.

Allowable Subject Matter

2. Claims 21, 23-25, 27-28, 31-43 and 47 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination of an insertion portion having a magnet driven to rotate by a rotating magnetic field outside of the body at a rotating speed of not more than 5 Hz with the insertion portion having a thrust-generating spiral portion having a projection height of not less than 0.3 mm to not more than 3 mm. Several references (e.g. – Yokoi et al – U.S. PGPub 2003/0181788) disclose a body insertion capsule having a magnet and thrust-generating spiral portion which is rotated by a magnetic field outside of the body; however, these references fail to disclose details concerning the height of said thrust-generating spiral portion and the speed at which the magnetic field is rotated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
